Newsletter n.3 May 2023

## *Your Green Career is Our Future: Green Jobs Career Readiness for Young People*

We are proud of the progress underway in the **Green Read** project. The most important issue discussed in this **newsletter** is the **GREEN READ Digital Platform** structure!

As part of this process, we created a prototype of the soon-to-be launched digital platform, which will be presented to participants for testing and evaluation. The testing will help to identify potential issues, shortcomings, or areas for improvement, allowing to adjust the training materials before finalization.

Partners

Why take the **assessment** first?

To verify that the platform meets your expectations and to identify knowledge gaps.

What are the platform sections besides **assessment** and **courses**?

Case Studies that allows participants to understand real-world applications of training materials and their impact on professional practice.

The GREEN READ Course is divided into the following skills:

- **Cognitive competencies**, you can find the following training materials: raising environmental awareness and a willingness to learn about sustainable development, systems, and risk analysis skills + Monitoring skills, Innovation skills to identify opportunities and create new strategies to respond to green challenges + Growth mindset, Critical thinking (Green washing vs Real Green), Material use and impact quantification

- **Intra-personal competencies,** you can find the following training materials: Adaptability and transferable skills to enable workers to learn and apply new technologies and processes required to green their jobs, Entrepreneurial skills to seize opportunities presented by low-carbon technologies, Leadership skills + decision making, Employability skills, Team working skills.

- **Inter-personal skills** - you can find the following training materials: Coordination, management, and business skills to facilitate holistic and interdisciplinary approaches that encompass economic, social, and ecological objectives, Communication and negotiation skills for discussion of conflicting interests in complex contexts, Marketing skills to promote greener products and services, Procurement and Selection, Green digital skills.

FOLLOW US ON THIS PROJECT AND WE WILL KEEP YOU UPDATED WITH THE MAIN ACHIEVEMENTS AND RESULTS!
